EDITOR'S COMMENTS

Hello and welcome to this edition of the Manchester newsletter. Hopefully by the time you read this the weather, here in the UK, will have improved from a rather dismal August. With no Government restrictions currently in place some events are being planned without the need for ZOOM. Two in the Manchester area are highlighted in this issue and M&LFHS will have stalls at both events.

I hope you enjoyed the Family History Federation Really Useful Bulletin and have taken advantage of the free subscription to future issues.

Sadly we received news in the month of the death after a short illness of member, former trustee and Society Fellow, Beryl Jones. Beryl was a stalwart of Society affairs for almost 30 years and her presence among us will be sorely missed. I am sure you will join us in sending our condolences to her surviving family, Stephen and Heather. An obituary will be published in the winter edition of The Manchester Genealogist.'

The editor of The Manchester Genealogist, Pat Etchells, is extremely short of articles so anything you can do will be warmly welcomed. Please contact Pat directly at editor@mlfhs.org.uk.

And finally, if you like word searches, head to the end of the newsletter for a little light relief.

A MESSAGE FROM OUR CHAIRMAN

It is hard to believe that it is now twelve months since we launched our new website, Manchester Ancestors. Early days, I know, but new memberships are up, the number of visitors is increasing month by month and each of our activities has been enhanced by the multi-purpose facility.

One instance this month confirmed for me just how useful the site is to members. I received a message from a member in Australia who wanted me to know how grateful he was for the help he had received from one of our Virtual Helpdesk volunteers with a research enquiry. Now, this kind of help is going on all the time, delivered by our office team, the member forum, and the Virtual Helpdesk team as well as the physical Helpdesks in Manchester Central Library and Branch venues, when in session. But it is encouraging when members take the trouble to send us such testimonials. The website is fast becoming the hub of our contact with members across the world and alongside The Manchester Genealogist, our Facebook and Twitter presence, together they offer added value for your membership subscription.

If you don't already use the website, I urge you to try it. There is so much of interest to the researcher. Our databases alone, containing over 1.8 million records, represent great value, with many records unavailable elsewhere. Our current project in preparation for the release of the 1921 Census already holds an immense amount of diverse material about the Census and the social and cultural climate of the twenties. And so much more.

Development of the website - <https://mlfhs.uk> - was the single most expensive investment made by the Society and it is there to be a research tool for each of our members. It was a great help to our friend in Australia. Think what it can do for you.

David Muil
Chairman

A MESSAGE FROM OUR GENERAL SECRETARY

The office is being run from home, as is the bookshop, by our usual team.

Feel free to contact the office office@mlfhs.org.uk for enquiries about your membership. If contacting us please give your membership number and the surname of the member (it is not always the same as the person paying). We are finding that members have never informed us of changes to their email address from when they first joined so it is **important** on the new website that we have an **up-to-date address** so please check.

Because of the current lockdown volunteers are not accessing our office at Manchester Central Library. Could members still paying via cheque please note the address for sending them has changed. Please do **NOT** send anything to the library. There will be delays if correspondence is sent to our office at Manchester Central Library. If possible please use the on-line option on our new website to join or renew your subscription to the Society.

We now use Stripe instead of PayPal so you can use Stripe or pay as a guest with your card. Have you considered taking out a Bank Standing Order? It means you don't have to think about renewing and you can stop it at any time. No need to think about it, just renews every year.

With the new system a reminder is automatically sent out two weeks before it is due date, it will not let you pay more than three months in advance. This is to stop members paying twice in the year.

I trust you are all keeping well in these difficult time, looking forward to the time when we can all meet up again.

In our first salon of the Autumn / Winter 2021 series, Prof Hannah Barker and Dr Michala Hulme trace the history of shops, shopkeepers and shopping in 18th, 19th and 20th century Manchester.

MLFHS is planning a special edition for the final issue of The Manchester Genealogist in 2021, which will focus on the imminent release of this invaluable and long-awaited resource.

In addition to planned articles about the background to the 1921 census and the information which the household returns will contain, we will welcome member contributions with a focus on or around 1921. Some possible topics include:

- What is the big question in your research that you hope the census will answer?
- What was your family doing in 1921?
- Family events in or around 1921 – do you have wedding or other photos?
- Other events in the census year, particularly events in or affecting Manchester.

BOOKSHOP

We have a couple of books that may be of interest to those members who may be considering attending the meeting in October hosted by The Association for Study of Death and Society (ASDS).

A Date with the Hangman

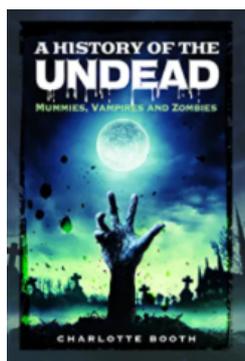

Code: 8536

£12.99

It is a sobering thought that until the closing years of the twentieth century, Britain's courts were technically able to impose the death penalty for a number of offences; both civil and military. Although the last judicial hangings took place in 1964, the death penalty, in theory at least, remained for a number of offences. During the twentieth century, 865 people were executed in Britain, and of those only 3 were ever posthumously pardoned. This book details each and every one of those

executions, and in many cases highlights the crimes that brought these men and women to the gallows.

Further details [HERE](#).

A History of the Undead

Code: 8576

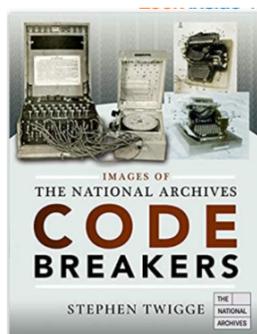

£15.99

Are you a fan of the undead? Watch lots of Mummy, zombie and vampire movies and TV shows? Have you ever wondered if they could be 'real'? This book, *A History of the Undead*, unravels the truth behind these popular reanimated corpses. Starting with the common representations in Western Media through the decades, we go back in time to find the origins of the myths. Using a combination of folklore, religion and archaeological studies we find out the reality behind the

walking dead. You may be surprised at what you find.

Further details [HERE](#).

On a more light-hearted note why not relax with

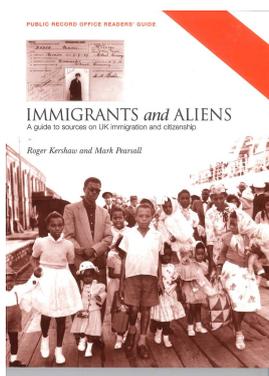

Code Breakers

Code: 8457

£14.99

The book reveals the story of British Codebreakers from the reign of Elizabeth I to the Cold War. It explores the use of ciphers during the Napoleonic wars, the role of the Royal Mail's Secret Office and the activities the Admiralty's Room 40' leading to the creation of the Government's Code and Cypher School. The main theme of the book are the events of the Second World War and the battle to break the German enigma codes.

Further details [HERE](#).

Immigrants and Aliens

Code: 7544

ORPHAN BMDs

Over the years members have been sending birth, marriage and death certificates to the Society that have either been ordered in error or are no longer needed. This has proved to be a valuable asset and has no doubt been useful for many. The scanning was carried out at Manchester Central Library but we are now in a position to scan and transcribe when working from home. Therefore, if you have any BMDs you no longer want then why not consider sending them to the Society. Please contact me at newseditor@mlfhs.org.uk for further details.

Were You There? The Story of Manchester Free Trade Hall.

THE FREE TRADE HALL – THE MOST IMPORTANT POPULAR MUSIC VENUE IN GREAT BRITAIN BETWEEN 1951 AND 1996

Richard Lysons, author of 'Were You There? Popular Music At Manchester's Free Trade Hall 1951-1996' will talk to veteran Manchester music writer, Mick Middles about his widely acclaimed book.

Richard is a member who supports the Helpdesk when in session and contributes to Society projects. This is one of his occasional personal projects which is worthy of support. It comes in the wake of the publication of his book about the Free Trade Hall as a venue for music in the latter part of the 20th century. It should be an interesting presentation.

[Manchester Local Image Collection](#)

Over 80,000 pictures and prints of old Manchester.

To order a high quality print select an image and follow the link. The Manchester Local Image Collection is a unique photographic record of Manchester, its people, streets and buildings from a period stretching well over 100 years. Over 80,000 images of Manchester and the surrounding area are available to view online. All images are available to purchase as fine A4 sized quality prints.

The original images are mainly photographs with some prints, drawings, watercolours and postcards, dating from the eighteenth century to the present day. The pictures of people, streets and buildings illustrate all aspects of the social, industrial, religious and transport history of the city. Between 1950 and 1972 the Manchester Amateur Photographic Society carried out an almost complete street by street survey of the city, showing the suburban streets before the major clearances and redevelopment during that period. The entire survey, as well as the Photographic Survey of 1892 - 1900, appears here.

NORTH WEST SOUND HERITAGE

Unlocking our Sound Heritage

Thousands of cassettes, open reels, CDs and MiniDiscs are sitting in archives, museums, libraries and in people's homes all over the UK. All kinds of unique live music, radio and conversation are recorded on these tapes and discs. We've already lost many of the people captured on them. And the British Library estimates that we have fifteen years to preserve the sounds themselves.

That's why the British Library has received funding from the National Lottery Heritage Fund to establish Unlocking Our Sound Heritage, an exciting new national project to save thousands sounds which are at risk of being lost forever.

Archives+ is the hub partner for the North West region, which covers Cheshire, Cumbria, Greater Manchester, Lancashire and Merseyside. We'll be digitising around 15,000 recordings on 5,000 cassettes, reels and optical discs held all over the region here at Manchester Central Library.

This is a fascinating site providing a flavour of times gone by. If you are a sword swallower then discover what not to eat and drink before a performance!
